

Blade, Knights Of Gold

Into town ride the Knights of Gold
Killed 90 men or I've been told
Heard that they all sold their souls
They'll freeze you 'cause their heart's so cold
And oh yeah well here they come
Anarchy is on its way
You'll be dead when they are done
Here they come, but it's too late
Refrain:

Here they come on black horses
Bringing torture to the land
Well they're lethal
Here they come on black horses
Bringing chaos to the land
Well they're evil

Into town ride the Knights of Gold
They came to make some heads roll
One more added to their death toll
They're straight from Hell or so I'm told
And oh yeah well, here they come
Anarchy is on its way
Surrender for they have won
Who fights them is very brave
Refrain

Into town ride the Knights of Gold
I heard that they all sold their souls
And they are always in control
They are the bravest they are bold
Into town ride the Knights of Gold
They fight and fight and gain control
And in their last day oh so wild
The Knights of Gold killed by a child
