

Blank & Jones feat. Vanessa Daou, Heart of Wax

Beauty never beats in a hard wax
It comes down to that
Lovers never sleep (echo)
It's conversations come, they're empty as a drum
Pick up me
Thinking about you
You got me dreaming
It's time I let you know
I've never loved anyone like you
It's time I do
I find myself running in the middle of the night
Bones lost in the tide
Make myself a shadow
(But you can never hold)
But you can never hold
A rose that no longer folds
You've got me dreaming
Dreaming about you
You've got me thinking
Every time I let you know
I've never loved anyone like you
It's time I do
So I put on my towel
I don't need your gloves, like a fire always does
Sometimes it's hard... to taking it slow
And watch the grass grow
You've got me thinking, thinking about you
You've got me dreaming, it's time you know
I've never loved anyone like you
It's time I do (repeat x2)
