

Blanks 77, Watch You Drown

Another shot another round
another chance for you to drown
(you figure it out)
Another high i wont come down
Im no stranger to rock and roll
the price I pay will take its toll
and when your down i'll watch you drown
and bring you to your knees

[Chorus:]
you cant try to stop me its too late
cuz your out of time and out of place
Another day another night
another round another fight
another hit wont be your last
into your grave for your last dance
