

Blaq Audio, I Fear Of Being Found

I have been a world apart
Stuck in between time
Head into the ground I'm found
Falling through fault lines
I feel see through
Can you see through me?
Could I change one thing?
Could I change your mind?
Shall we burn it just like the last time?
I can't change a thing, can't explain why I never felt it
Not even the first time
Raise a glass and toast the flame
Just like the old days
Swallow, but be careful, don't drown
Thenew ways you could say
Would you change this time?
I'll being to change my mide
When you can explain why
I feel see through
Can you feel me?
Could I change one thing?
Could I change your mind?
Shall we burn it just like the last time?
I can't change a thing, can't explain why I never felt it
Not even the first time
Shall we?
Nothings different
Shall we?
Nothings different
Shall we?
Nothings different
Shall we?
Nothings different
Could I change one thing?
Could I change your mind?
Shall we burn it just like the last time?
I can't change a thing, can't explain why I never felt it
Not even the first time
