

Blaque, Rainbow Drive

People all over the world
Let's come together
We need some unity
And peace among one another
Here's what ya do(try)
Just let ya feel (to)
Release your fears
And bring your mind
To my point of view

Chorus:

Lets get to Rainbow Drive
Everybody come together
And just feel the vibe
Let s get to Rainbow Drive
come on let's get together on Rainbow Drive
Let's get to Rainbow drive
you don't need no money it's a natural high
Let's get to Rainbow Drive
forget about your worries it's gonna be alright

Love and peace on earth
We've gotta make it work(we gotta make it happen)
If we come together
I promise it'll be worth the ride
New heights we'll climb
Our time is too short
We've gotta live our lives

Chorus

We got live (We got to come together)
When we do wrong to each other we pay
(Ha, remember that.)
It might change your life
When you understand
That you're only a shade away
And to Rainbow Drive

Chorus till end.
