

Blaque, Roll With Me

Roll With Me

Blaque

(Shamari)

Mmm, yeah baby, ooohh, ohhh

I've got to know what's going on baby
Why things 'tween us they are so shady
I thought we had, had an understanding
That it would go down when I'm good and ready

(Bridge)

It was all a simple thing that made,
(that made me wanna get with you be your boo)
When you started trippin', running games
(So now you gotta choose, that's why I'm tellin' you)

(Chorus)

If you're gonna roll with me, baby let me know
If all you wanna do is get down, then you gotta go
Baby I'll let you know when it's right for me
So baby in the meantime
I think you need to get to know, know, know me

Why you tell me, you wanna be with me
I feel that it's just a hit and a run while baby
Lately I've been checkin' out the facts
That's why I won't get up on my back

Repeat Bridge
