

# Blaque, Temperature

Unexpectedly, started touching me  
Thought it bothered me, but it made me weak  
It's only suppose to be, 70 Degrees  
But ya rubbin me makes me 1 0 3  
I can see the steam on my back window  
Gotta cool it down, don't want the neighbours to know  
We've only just begun  
Cause you make my temperature rise up

## CHORUS

When you touch and you rub and you hug and you hold me slowly  
You make my temperature rise up  
When you kiss both my lips on my hips and you pull me closely  
You make my temperature rise up  
Cause you show me, through it only  
That flirting will only will make my temperature rise up  
And I can't get enough

I just can't believe, got me trembling  
Now I'm giving in to your every wish  
How'd it come like this, we were only friends  
That's what I'm thinking by surrendering  
Now you show me babe, that I've never seen  
And I'll never part, you have this much to bring  
If you don't tell, you could be the one

## CHORUS

I never thought that you'd be the one  
I never knew you felt me this way  
How could a friendship turn to love  
You got me where you started  
Touching me (touching me)  
And rubbin me (rubbin me)  
Holding me (holding me)  
Creating this heat  
Got my temperture rises so much  
Boy I think I'm in love

Oh ....  
Yea yea yea yea  
Oh  
Oh ....  
Oh yea  
Boy you got me

CHORUS till fade
