

# Bleach, Epidermis Girl

Sweetness whispers nothings in my ear.  
Nothing is exactly what I hear.  
With a glaze she gazes into space.  
Is there nothing more?  
There must be something more.  
I can see that beauty is more than skin.  
My infatuation leads me to sin.  
Give me vision past the epidermis girl.  
Is there nothing more?  
There must be something more.

I find a want, I want a need, I need a deeper love  
I find a want, I want a need, I need a deeper love.
