

Bleach, Mad Surfer

Try to boogie - guns and tattoos,
basabasa no kami
Downtown, mugetsu no shita,
vast sekai e let's roll
From when you're born, hageshii,
they take away your powder
Somebody get me around
(someone, someone...)
Somebody get me around
(someone, someone...)
I love your heavy hand
(Come on, Come on, Come on)
I love your delicate way
(Come on, Come on, Come on)
Just lost it.
Bad days, nagesutete
Shizen kaesu, rock baby
Natural, seeking order
oretachi na no sa
Somebody get me around
(someone, someone...)
Somebody get me around
(someone, someone...)
I love your heavy hand
(Come on, Come on, Come on)
I love your delicate way
(someone, someone ...)
You better leave a little while
(someone...)
Wow!
Just go!
