

Bleach, Once Again Here We Are

Once again here we are another melody Ill sing
And you will laugh and you will smile
But when were done we all will leave.
But there is something more I wasnt to give
More than just a melody, I guess

Once again, here we are, this little trip seems so far
Well spin these tires and beat the road
A few more songs, A few more shows

Once again here we are, He has carried us this far
When I get tired, I wont quit
Until Ive given all Ive got to give

Once again here we are
Here we are once again
