

Bleach, Waving Goodbye

Life is short, it seems
Quick it comes how quick it leaves
We search for life in passing things

I see bits of you in me
I've got something you should see
I am poor in most everything
But I will get a crown of Kings

I don't know where you'll be
I hope it's with me in the sky
Looking down way below
Waving Goodbye

I watch the time with you pass
I wish so much that it would last
But if the thief comes here tonight
I hope to see you on the other side
