

Bleachers, Tiny Moves

the tiniest moves you make
the whole damn world shakes

call it a blood lust crisis of faith
been changing enough for us both babe

watching it all come down
watch it go round and round
the tiniest moves you make
watching my whole world shake

look who's on the edge again
on the edge again

call it american football chic
breakin' your neck for no reason

the little brush right down the avenue
a tiny twist of faith will come and shake you
you can believe

watching it all come down
watch it go round and round
the tiniest moves you make
watching my whole world shake

look who's on the edge again
on the edge again

on your own again

the tiniest moves you make
watching the whole world shake
watching my whole world change
the tiniest twist of fate
watching my whole world shake
watching the whole world change

the tiniest moves you make
the tiniest twist of fate

watching my whole world change
