

# Bledsoe, I Want

When she woke up on that day  
And it felt just like the rest  
But everyone knew better  
And she dreams about the day  
And she dreams that she is golden  
But she never knew  
She never saw it coming  
And she wonders if it comes  
But she knows it never comes  
And God knows she needs this hand  
Do you think that you can  
When it's all she ever needed to say

I want to be close to you and say all  
Of these things you need to know  
And I want to be close to you and say all  
I wanna say it all the time

And he wonders if he's got it  
And he takes his time to find it  
Somewhere inside all of his pain  
And he wishes he was older  
But I still think he's too young to die  
And he wishes he could tell her one more time

Do you think that you can  
Cause it's all he ever needed to say

I'm falling down Don't let me down  
Though I don't know why  
I'm crawling down You're still around  
Though I don't know why

How low do you think I'll go  
And how far do you think I'm falling down  
Around you got me wrapped around you  
You're not gonna change this  
You're not gonna save this  
I want I want
