

Bleeding Rainbow, Waking Dream

Everything that I dream I wanna see in front of me,
please take me away, I know I can see when it's over.

Sunshine is all I see, life falling over me,
I felt everything at me American dream

Walk em in the morn hunter we..what we're looking for
I'm alive in this place I only feel love
how do you not hear?

Sunshine is all I see, life falling over me,
I felt everything at me American dream

Sometimes I never want to hear the things I've heard before
I'll take a trip to find a way to risk and life is such a..
and when I'll come back I'll be..as before.

Couldn't let so many people
I know ..how I feel too far gone.
tired of the noise around me,
this sound is all I ever hear.
so I escape away from this place
it's not too late.

Sunshine is all I see, life falling over me,
I felt everything at me American dream
Sometimes I never want to hear the things I've heard before
I'll take a trip to find a way to risk and life is such a..
and when I'll come back I'll be..as before.
