

Blessid Union of Souls, I Still Believe In Love

Ten years have passed and we're right where we were
Some things are better but so much is worse
I wonder sometimes if we're under a curse

What was once laughter has now turned to tears
And it seems not we're all just living in fear
And I can't help wondering how we here, so far

But I still believe
I still believe in love

So much has happened and so much has changed
But then again I guess it's more of the same
And we have got only ourselves to blame

I think of what life will be like years from now
I hope things get better but I can't see how
When all of the lines that we've crossed can't be found nowhere

But I still believe
I still believe in love

Yes I still believe
I still believe that God is the one who has made us
And got is the one who can save us
But God is the one we're afraid of believing

While all the world just keeps on fighting
All of our children keep dying
But I believe love just keeps trying to lead

But I still believe
I still believe in love
Yes I still believe
I still believe in love
