

Blessid Union of Souls, It's Your Day (Bronsons's

It's your day
colored pictures from a kids eye
Across the way
And the animals all curious today
As if life was just a candle wish away
Wish away
It's your day
Candles burning more than you would like to say
Send the conversation way the other way
Did you find another silver line today
Or is it gray
Gotta learn to keep those ghosts away
Buy'em all a one way ticket to Neverland
God'll help you keep those ghosts away
It took a little while but I'm free again
Celebrate
There was a time that you were happy on this day
But you dreamed all of those precious years away
And the golden ones get closer everyday
Wouldn't you say
Gotta learn to keep those ghosts away
Buy'em all a one way ticket to Neverland
God'll help you keep those ghosts away
It took a little while but I'm free again
Sing along
Lift your head up high cause there is nothing wrong
It's a wonder you survived it here this long
Living life as if it was a sing-a-long
Sing along
Gotta learn to keep those ghosts away
Buy'em all a one way ticket to Neverland
God'll help you keep those ghosts away
It took a little while but I'm free again
