

# Blessthefall, We'll Sleep When We're Dead

Let the light shine in  
Cause were not alone  
Were not alone  
Let the light shine in  
Cause were not alone  
Were not alone  
(We will tear away, we will tear away)  
This awful feeling, Lets start the bleeding  
(We will wash away, we will wash away)  
(All of your doubts)  
This will be the last time that..  
Youre never going to hurt again  
Ill never sing this song without you (without you)  
Remember the way that it felt  
Youre never going to hurt again  
Ill never sing this song  
Remember the day  
Remember  
Hide your makeshift hearts  
Were taken aim (were taken aim)  
And we wont be leaving  
(Hide your) makeshift hearts  
Were taken aim, taken aim  
We wont be leaving  
(We will tear away, we will tear away)  
This awful feeling; lets start the bleeding  
(We will wash away, we will wash away)  
(All of your doubts)  
This will be the last time that..  
Youre never going to hurt again  
Ill never sing this song without you (without you)  
Remember the way that it felt  
Youre never going to hurt again  
Ill never sing this song  
Remember the day.  
Remember  
Let your, light shine in tonight, tonight, tonight.  
All alone is where we've been before.  
All alone is where we started.  
All alone is where we've been before.  
All alone is where we started.  
(All alone is where we've been before)  
(All alone is where we started)  
(All alone is where we've been before)  
(All alone is where we started)  
We'll be testing the martyrs,  
We'll be testing the martyrs.  
And bringing hell and high waters,  
And bringing hell and high waters.  
We'll be testing the martyrs,  
We'll be testing the martyrs.  
(And bringing hell and high waters)  
And bringing hell and high waters
