

# Blind Guardian, Run For The Night

There comes the last part and end of our old age  
With thunder and lightning the dark lord is taking  
The crown of the whole world  
His creatures will kill me poisons my soul  
To the end I will fight but I know that the things  
That I do are so meaningless - oh, no !

I see the hill but it's so far away I know I can't reach it  
But I try it again and again in my dark dreams  
He's waysting my last will how long can I stay here  
When the mightiest of all will now

Refrain:  
Run for the Night burn away  
The times of his fall I've to pay

Visions of darkness prepared for the last strike  
Bloodlust their weapons and madness you see feel their  
Eyes there's no way out  
I'm lost in a dark dream and losing control  
To the end I will fight but I know that the things  
That I do are so meaningless - oh, no

I see the hill but it's so far away I know I can't reach it  
But try it again and again in my dark dreams  
He's waysting my last will how long can I stay here  
When the mightiest of all will now

Refrain:  
Run for the Night burn away  
The times of his fall I've to pay

You see them running in the shadows of the night  
It is not what it used to be  
They've been scared and they've been anxiously tonight  
You see them running with the wind

They  
Run for the night  
Run for the night  
Run for the night

Solo

Refrain:  
Run for the Night far away  
The times of his fall I've to pay  
Run for the Night far away  
The times of his fall I've to pay
