

Blind Guardian, The Martyr

He was born in the past time
To take all our pain
The kingdom of heaven is near
The children of this time
Must die for his arrive
To let all the legends be true
The prophecy said they'll call king of the jews
He is born now to take all our sins
Three kings were searching for this holy child
The journey begins, he has to die

Bridge:

Healing the cripples and taking our pain

He came for the sinner

But what we have paid

Disciples are following

They are calling his words

Salt of the earth and light of the world

Refrain:

Martyr - we are following you bless us for eternity

Messiah - we are torturing you when you lose the power of your words

Jump from the temple and angel will save

Show me that you are the son of our God

Now take my land with my power you get

Rulin' the world of tomorrow

Now !

Messiah - Liar - Our burning desire

He is the king without a crown

We will set him to his throne

Give me 30 p. of silver and I'll be your man

Higher - Liar - The fallen Messiah

Let us see his agony

The things he done are blasphemy

Mob has lost their joy on toy so let us kill him fast

Now drink my blood for the new testament

This is my body you eat

One of you twelve is the one who betrays

Better that he's never born

Judas you're the chosen one

The world has damned your name

No !

Bridge:

Begin with a kiss at a cross it will end

The kingdom of heaven we've passed

The sky will turn black and the curtain will fall

The father is crying for his son

The tortured Messiah is finding his way

The journey has come to the end

The twelve ones are preaching the words he had left

They're changing the way of the world but die for

Refrain:

Martyr - we are following you bless us for eternity

Messiah - we are torturing you when you lose the power of your words

Martyr - we are following you bless us for eternity

No
