

# Blind Guardian, Thorn

A black swan  
Is born in that night  
The misty pond  
Got a new king  
Got a new king

So what can we do with our lives  
When it all begins  
It's hard and it's cruel  
Will grace die in pain? Will light ever rise again?

Oh, I'm trapped in darkness  
Still I reach out for the stars  
I'm moving in silence  
I leave it all far behind

chorus:  
Oh at dawn  
I'll face the edge of thorns  
Oh at dawn  
I'll pray at the edge of thorns  
Oh at dawn  
I'll face the edge of thorns

Let us march on  
To the fields of sacrifice, wondering why  
I'll carry on  
Will I betray myself to rise

In the silence  
It's time to explain  
Search for truth in lies  
Useful lies  
Needless love's damned

What can we do with our lives  
When it all begins

Come follow me  
And you will see  
How it will be  
When all the pain is gone away

chorus:  
Oh at dawn  
I'll pray at the edge of thorns  
Oh at dawn  
I'll face the edge of thorns  
Oh at dawn  
I'll pray at the edge of thorns  
Oh at dawn  
I'll face the edge of thorns

Let us march on  
Though there's no hope at our side  
Let us be brave  
Though by glory we are denied

bridge:  
But don't you think  
It's time for us  
To bring to an end  
Come play the song of death

The wisdom in us both  
Will make it  
Special guaranteed  
Come play the song of death

I'm lost in the depth of his eyes I can't flee  
Inner pain caused insanity  
It's deep within  
The fear and the hunger  
Enslaved and denied by my love and my enemies  
I'm the illgotten son

chorus:  
Oh at dawn  
I'll face the edge of thorns  
Oh at dawn  
I'll pray at the edge of thorns  
Oh at dawn  
I'll face the edge of thorns
