

# BLIND, Half a dream away

You look at me and i wonder  
Hey there what is missing under-  
neath your cover and your broken smile.  
Let me try to fix your sadness  
heartbreak got off for this madness  
your rain dont stop them  
Sorrows from our minds .  
You look at me  
Im your mirror,  
I see your Solitude, Im your parachute.  
When you far through the night  
and the Shades try to get you,  
I will be around .  
Time after time  
Im gonna catch you  
I wont let you down ..  
Ohu ohu  
half a dream away  
Ohu . ohu  
Theres no  
Breaking the night  
Come on turning you back  
On yesterday  
Tomorrows just half a dream away.  
Ohou ohou .. half a dream away  
Ohou ohou ..  
When youre far through the night, and the  
Shades try to get you,  
I will be around .  
Were driving away  
On a beautiful ride  
Killing the shadows  
Breaking the night  
Come on turning you back  
On yesterday  
Tomorrows just half a dream away.  
Ohu ohu half a dream away  
Ohu Ohu half a dream away  
ohu ohu half a dream away  
ohu ohu half a dream away
