

BLIND, Long Walk Home

I'm lost and there's no-one beside me
I'm afraid and I'm losing sleep
It's dark and I can't find the road home
But you rescued me

(CHORUS)

It's been a long walk home
And I want to reach that door with you
It's been a long walk home
And I want to fall into your arms
You are my light and you show me the way home
You walk with me on the winding road
You hold me tight when I'm lost in the valley
And you're here for me

(CHORUS)

(instrumental)

(CHORUS x2)

When I stumble you keep me from falling
When I lose hope you comfort me
There's still a long way
But you're here beside me
You strengthen me
