

Blind Melon, Three is the magic number

Three, oh, it's the magic number,
Yeah it is, it's the magic number
Somewhere in that ancient mystic trinity
You get three
It's the magic number
With the past and the present and the future
And faith and hope and charity
And the heart and the brain and the body
It'll give you three; it's a magic number,
It takes three legs to make a tripod
Or to make a table stand
And it takes three wheels to make a vehicle
And call it a tricycle
Every triangle has three corners
Every triangle has three sides
No more, no less
You don't have to guess
That is three, can't you see?
It's the magic number
A man and a woman had a little baby
Yes they did,
There were three in the family
That's the magic number

3 6 9

12 15 18

21 24 27

30

3 6 9

12 15 18

21 24 27

30

Now multiply backwards from 3×10

Oh, well 3×10 is?

30

And 3×9 is?

27

3×8 is?

24

3×7 is?

21

3×6 is 18

3×5 is 15

3×4 is 12

And 3×3 is 9

And 3×2 is 6

And 3×1 is 3, of course

Now dig the pattern once more

3 6 9

12 15 18

Oh! 3×10 is?

30

And 3×9 is?

27

3×8 is?

24

3×7 is?

21

3×6 is 18

3×5 is 15

3×4 is 12

And 3×3 is 9

And 3×2 is 6

And 3×1

What is it?

3!
Yeah!
A man and a woman had a little baby
There were three in the family
And that's the magic number
