

# Blind Melon, Wishing Well

When you fall back down  
And you've lost your crown  
Get back up, walk around  
Turn that frown upside down

Take my hand once again  
We will all understand  
Help you find a new plan

It's time to help you  
Get you back on your feet and on your way  
If the tables were turned around  
I know you'd be there for me  
It all works out

Don't get lost and forget  
Turn the lights off and rest  
Don't you worry no more  
Kill your pain and your sores  
We'll be there when you wake  
No more sweat or the shakes  
Feel the love if you can  
Lost your mind, feel insane

You're feeling hopeless  
And all your dreams have gone away  
Take the time to heal your sorrows  
Disappear from the world  
Live for tomorrow

Hope you changed your ways  
There's not much more to say  
When the dark turns to gray  
Broken hearts fade away

It's time to help you  
Get you back on your feet and on your way  
If the tables were turned around  
I know you'd be there for me  
It all works out

And I hope  
That it all works out
