

Blinded Colony, Heart

Are you there, dear old friend? I really miss you
'Cos I can't feel your beats unless my hand's on my chest

Guidance, please! Now don't you shut down again
Your guidance ceased and I fell down, I still don't stand

Dear old friend where have you gone?
Now I can't feel at all what's right or wrong

I made wrong moves, a dog rose in bloom later withered
Then the shock, that shakes me still, came almost fatal

Guidance, please! Now don't you shut down
again
Your guidance ceased and I fell down, I still
don't stand

Dear old friend where have you gone?
Now I can't feel at all what's right or wrong

Don't you leave me here alone!

Dear old friend where have you gone?
Now I can't feel at all what's right or wrong
