

# Blindside, The shoulder

Come with me, ride upon my shoulder why don't you  
Don't you see, you can't fall down when you're  
On my shoulder  
You wonder if you must climb  
To get away from the slime  
Seeking it's way in to your heart  
But I know  
Yes I know  
You'll see this through  
Come ride upon my shoulders I'll carry you  
Why is it that you must fight alone?  
I've known you before you did  
So don't you play no charade  
Breathe my air, come ride upon my shoulders  
Don't feel scared, I won't break when you're on  
My shoulder  
You wonder if you must climb  
To get away from the slime  
But I alone will lift you up  
Because I know  
Yes I know  
It is time  
To leave yourself behind  
I can take every drop of your spit  
But it's when you do you see you don't fit  
It is time
