

Blindspott, Mind Dependency

You are all part of this now
Someway, somewhere, or somehow

Your mind dependency
Is it my disability

Inside you and I are alike
Same face, same soul, no yours and no mine

Your mind dependency
Is it my disability

Someway, somewhere...
Someway, somewhere...

Your mind dependency
Is it my disability

This was right

(And now, for my next number, I'd like to return to the classics)
