

Blip Blip Bleep, Human

The only one to hear
the greatest parts
of the greatest songs
the only ones to feel
the saddest parts of the broken hearts

are you getting kind of tired
are you gettind drunk and wired
you're trying too hard
you're coming on too strong
and they're moving along
you're going out of style
you feel so human

you put in all this work
you drink your thirst
and make it worse
but what if all this time
your great escape
was a great mistake?

the honeymoon is over
the novelty got older
you're trying too hard
you're coming on too strong
and they're moving along
you're going out of style
and you feel so human
and you feel so useless

hey hey hey, oh, oh, oh

you're trying too hard
you're coming on too strong
and they're moving along
you're going out of style
and you feel so human
and you feel so useless
