

# Bliss N Eso, Field Of Dreams

I'm standing here in my field of dreams  
You love has passed me by it seems  
And the sun has hidden its face for another day  
I'm gonna take you by the hand  
And lead you through these precious lands  
And listen to the words you have to say

Come on baby take hold of me  
Fulfill my dreams and set me free  
I know the truth and I know you believe  
Your trust supplies my energy  
Come on baby take hold of me  
Fulfill my dreams and set me free  
I know the truth and I know you believe  
Your trust supplies my energy

It's a matter of fact  
And it's plain to see  
The love that burns inside of me  
I'd like to lead you back here by my side  
These memories might never last  
A broken dream held from the past  
And the passion that is lost within my mind

Come on baby take hold of me  
Fulfill my dreams and set me free  
I know the truth and I know you believe  
Your trust supplies my energy  
Come on baby take hold of me  
Fulfill my dreams and set me free  
I know the truth and I know you believe  
Your trust supplies my energy
