

# Bliss N Eso, Never Give Up

From the streets of San Diego to the slums of Echo Park  
Broke down and homeless is where I got my start  
I bounced around for years doing this and that  
But now I'm doing good and I'm never looking back

I began with nothing, I still ain't got much  
When life got me down I had to be tough  
From the age of 14 I was on my own  
No one would do it for me so I did it alone

Shelter to shelter and jail to jail  
I'm here to tell you right now that I will not fail  
I wish my old friends could see me now  
Because they never would believe what I am doing now

I never gave up

Right now I'm where I want to be  
Maybe not for you, but it's good enough for me  
Don't need no fancy cars or diamond rings  
All I wanna do is get on stage and sing

My dream is today and I'm doing it strong  
No matter what the odds, I will still push on  
I will do it for the poor who have no voice  
And for all of the victims who had no choice

I will do it for the weak who cannot fight  
For those who were wronged I will make things right  
It's been an uphill battle, my fingers have bled  
But I'm almost there and I am far from dead

I never gave up

When I came to the city of Hollywood I was broke down and beat  
I slept behind dumpsters on the side of the street  
There's one thing that always got me through  
The one thing I always held true is that I never gave up  
I'm never gonna give up
