

Bliss N Eso, The Sea Is Rising

And all I know is the sun is shining, yet we fight on through the night
While the burgs are melting and the sea is rising I don't know so I ask them why
Yeah, why are they refusing to listen

Why are these troops on a mission?

And why are they shooting these victims over their view on religion

Yeah why do we all search for love like we got cupid's addiction

Why with politicians you can't tell the truth from the fiction

Why do we pollute where we're living?

Why are these youth put at risk?

And why is this fool on dominion kept us consumed in this prison

I won't jump through the hoops of this system

Nothing stands between you and the pursuit of your vision

I grab a loop of this rhythm it's puts the juice in my pistons

So jump back, react spit in the boots with precision

When I'm cruising with 'ism' yeah I'm doosing the spliff

It's a BNE show bitch getting loose was a given

I don't want them to look back when the future was written

And know we killed ourselves with nuclear vision and stupid decisions

Shit I'd rather an asteroid due for collision then know the planet got fucked by the human condition

Sing the tune with conviction!

All I know is the sun is shining yet we fight on through the night

While the burgs are melting and the sea is rising I don't know so I ask them why

And all I know is the sun is shining yet we fight on through the night

Well if you don't know shit I don't know I guess all we can do is ask them why

Yeah I'm an old school poet I cherish the ink

That cosmic cowboy that doesn't care what they think

Real magic isn't card tricks big cribs and cars bitch

It's making something out of nothing through this hardship

And even though we know that the earth is weak

We still bomb each other and idol what the churches speak

It's like this land is either run by Labour or Liberal

But don't get entwisted they're the same as the criminals

Open your eyes simply notice the issue

That we stuck to our guns without promoting the pistol

We only orchestrated the sound that we all love

Split because of colour but bound because of blood

So before we all blow and they sell the scene

Know that the only thing that's bullet proof is my self esteem

See this is way beyond cash, and ego tripping it's an epic electric eso ecosystem

Grow with me!

All I know is the sun is shining yet we fight on through the night

While the burgs are melting and the sea is rising I don't know so I ask them why

And all I know is the sun is shining yet we fight on through the night

Well if you don't know shit I don't know I guess all we can do is ask them why

I don't have to tell you things are bad

Everybody knows things are bad

Pollutions recognise the icecaps are melting quick

Kids trust no one and why else would they

The air is unfit to breathe, our food is unfit to eat

It's an inferno land, pollutions recognise the icecaps are melting quick

Fuck all that shit; we are here together in this country as one

As fucking one!

It's all about peace, love and unity

Sing it, peace, love and unity

All I know is the sun is shining yet we fight on through the night

While the burgs are melting and the sea is rising I don't know so I ask them why

And all I know is the sun is shining yet we fight on through the night

Well if you don't know shit I don't know I guess all we can do is ask them why
