

# Blitz, Walkaway

I hope I never see this face again  
I hope I never see your face again

When I walk away, walk away, walk away

This is the day I pray to see this end  
If we never meet again I'll sleep till then

When I walk away, walk away, walk away

I hope I never see this face again  
I have nothing more to say to you my friend

I'll just walk away, walk away, walk away  
I'll just walk away, walk away, walk away
