

# Bloc Party, Stunt Queen

Kurosawa, let's be clear, I am not your mate  
I did not come to kick it, I came here to collect  
So tell me something other than the money's been spent  
Better stop talking  
Kurosawa, let's be clear, I know all the tricks  
But I did not come to gas you do, I came to get rich  
So, if you want to test me, you will pick up a stitch  
But stop talking

I've got friends in high places  
I know what you don't know  
Been round the block a while  
In my time, I've pulled a stunt or two  
Kurosawa, let's be clear, I am no local  
See, I am not the one for your shenanigans  
And if you want to try me, I will give you the most  
But stop talking  
All these youth think they've changed the game  
Running round my ends in their SUV-s  
Talking grease out the side of their neck  
No one likes a grass  
I don't give a fuck about Cindy Lou  
If you get your mans, I'll get mine too  
And I'll show you what  
This old-timer can do

I've got friends in high places  
I know what you don't know  
Been round the block a while  
In my time, I've pulled a stunt or two

All these youth think they've changed the game  
Prancing round my ends in Huaraches and fades  
A few more reps on chest day, son  
If you want to contend  
See, I don't give a fuc\* about the Old Bill  
If you ring the filth, I'll bring my goons  
I'll show you what  
This old-timer can do,  
It's "Sayonara"

I've got friends in high places  
I know what you don't know  
Been round the block a while  
In my time, I've pulled a stunt or two  
I've got friends in high places  
I know what you don't know  
Been round the block a while  
In my time, I've pulled a stunt or two
