

Bloc Party, Tulips (Minotaur Shock Remix)

When you said tulips
I knew that you're mine
When I caught you there
Crying in the night
Wearing my jacket
Wearing that smile
I knew that I'd found you

This could be an opportunity
This could be an opportunity

Were you unawares
Did it catch you out?
Or did it break you in
Right from the start
It's as pure as fire
It's as pure as snow
I knew that I'd found you

This could be an opportunity
This could be an opportunity
If you promise to let it grow
If you promise to let it grow

'Cos you're the one I love [repeat]
