Blonde Redhead, For The Damaged (Remix)

Maybe again he will be alone Guess we're equally damaged Find your name do it all the same equally Signal when you can't breathe no more

Say you were me then you could see the view You'll know we are equally damaged Don't be a fool, make it easier You'll learn to say when Signal if you can't say, "no more"

Don't cross your finger Sundays will never change They keep on coming You'll be a freak And I'll keep you company
