

Blonde Redhead, I Don't Want U

I don't want you I don't need you
I wanna know...
I wanna know how it'd feel
without a single confrontation

I don't want you I don't need you
I wanna know...
I wanna know how it'd feel
without a single confrontation

I say, you're good
Guide you, got you by
maybe, way out wish you
Why could we be to be all?

I don't want you I don't need you
I wanna know how you feel in a confrontation
