

Blood Meridian, Oh, Oh, Oh

Oh oh oh

Well, we're living in a dream no one wants to see oh no no

And we're feeling so besieged like a f*cking disease

And we're buying all the things take away all the pains ohhhhh

Just living every day like it matters anyway

Let's get ruined

Well my friends are so depressed, they won't mind

Unless it's a joke

And we're living with machines

And we can't even breathe

With our heads in the sand where we can't be found

And we're singing all the songs that nobody wants

Let's get ruined

Let's get ruined

Well, we're living with machines

And we can't even breathe

With our heads in the sand where we can't be found

When my friends are so depressed, they won't mind unless

Feeling so besieged like a f*cking disease

Let's get ruined

Let's get ruined
