

Blood on the dance floor, The untouchables

You're quick, we're faster
Where we kick in fatal disasters
We are the untouchables
We are the untouchables
We are the untouchables
We are the untouchables
Gone away where we're from, little bitches better run
We own these streets; we own this sound, pop pop pop you with our guns
Got my posse, we're a team, I can get nasty real mean
We run this show, we'll run you down, look motherfucker this is our team
Loose lips sink ships, you can't touch this
What's it to you?
Loose lips sink ships, you can't touch this
What's it to you? I'm coming for you!
Embrace your dreams, embrace your dreams
Protect your honour, defend your pride
Have faith in me, have faith in me
Your final fantasy...
What goes around, come-comes around that's why you're on the ground
No, can't escape from destiny, what goes up comes back down
I've got my slash gash terror coming real fast
Games come to an end and I'm just saying, it will be your last
Loose lips sink ships, you can't touch this
What's it to you?
Loose lips sink ships, you can't touch this
What's it to you? I'm coming for you!
Embrace your dreams, embrace your dreams
Protect your honour, defend your pride
Have faith in me, have faith in me
Your final fantasy...
We are the untouchables
We are the untouchable
We are the untouchables
We are the untouchables
My words are my weapon
I'm such a bold perfection
Bring the world to its knees
Make every hater believe
Embrace your dreams, believe...
Protect your honour, defend your pride
Have faith in me, have faith in me
Your final fantasy...
Believe in me, the untouchables
Believe in me, the untouchables
