

# Blood, Punishment

Lying here - waiting for the end  
Release myself from life's punishment  
Escape to the void I came from  
Leaving behind a darkish, disturbing world  
PUNISHMENT - I never asked for life  
PUNISHMENT - My will is free - my choice suicide  
The final dormancy I adore, dying is the name  
Realize I'm weeping with laughter  
As I found I always fathomed for  
You shall obey - I will not  
Searching for the true delight  
The cannot rot one with eternity  
Forever I will sleep
