

Blood Red Throne, Malediction

Vision straight from hell
As it spread its wings before you
Malice shadows
Your infected soul
Assidious formula of sadistic blackness
A fusion of black flesh and monstrosity

Black flesh, Malediction

Putrefaction to come
As the pillar of life collapse
Extreme shockpulse of anguish
Rage the face of the earth
Distinct peril
Extermination of divine abomination

Severe seysures of blood craze
Until you havent humanity

Black flesh, Malediction
