

Bloodbound, Metal Monster

One day, one night
One set of burning wheels
You better get this right
Once in a lifetime once in a while
Cruel disposition men keep moving down this line

She's hot as hell
and hell you ride

My lady of the night, can't romance her no
Charging through the night her engine roars
With screaming tires, spewing flames
Knocking at hell's door, she's a metal monster

Someday, sometime
One scorching hot machine calling down the line
From this position, burning fumes inside
Move through the gears so fast
you better treat her right

She's hot as hell
and hell you ride

My lady of the night, can't romance her no
Charging through the night her engine roars
With screaming tires, spewing flames
Knocking at hell's door, she's a metal monster
