

# Bloodbound, Plague Doctor

The case is closed, the picture framed  
but it wasn't you  
No one seems to listen  
And no one ever cares  
Your pleas for innocence  
do nothing for you now  
Nothing ever happens  
It's like nothing ever will  
Into the play  
This farce if you will  
A man with a cure  
Plague doctor  
You owe me  
I saved you  
You don't know me, but I you  
If you fail me  
and I see you  
There's no telling  
What I'd do  
Watch him closely, do just what I do  
The tenants in this venture  
They'll walk all over you  
He's a man of stature  
got credentials like a God  
So tap into the system  
Have a look!  
He's nowhere to be found  
Like the plague  
this man of the world  
He's all that you've heard  
Plague doctor  
You owe me  
I saved you  
You don't know me, but I you  
If you fail me  
and I see you  
There's no telling  
What I'd do
