

# Bloodgood, Help Me

They said it would last forever  
We'd taken our vows  
We started our lives together  
But look at us now

When did we stop trying  
Now I feel like dying

Scars that will never heal  
The damage is done  
Arguments gone forever  
But nobody's won

I thought love would make it alright  
But all we could say was goodbye

Help me get through the night  
Give me the strength  
'Cause I feel I'm falling

Help me see through the night  
I've got to believe  
That a new day's coming soon

We started our lives together  
We'd taken our vows  
They said it would last forever  
But look at us now

I thought love would make it alright  
But all you could say was goodbye

Help me get through the night  
Give me the strength  
'Cause I feel I'm falling

Help me see through the night  
I've got to believe  
That a new day's coming soon

Help me get through the night  
I can't close my eyes  
Cause I feel tears falling

Please, please help me to see  
I've got to believe  
That a new day's coming from you

[This song is dedicated to all those going through the pains of divorce. Let them get you through th
