

bloodsimple, Cruel World

Enslaved in the name of democracy
The age of distrust and hypocrisy
Unemployed living in poverty
It makes me sick to witness

It's kill or be killed in the street
Obscene and rank with defeat
Hold true to what you believe
Beloved Jesus Christ

We're gonna be extinct
So let's pray

Image of death and atrocity
Unconscious, unrest and anxiety
End of peace, end of love and unity
Deliver us from evil

It's kill or be killed in the street
Obscene and rank with defeat
Hold true to what you believe
But the fear

We need some revolution
We need assassination
To bring on some Armageddon
Rape it, hate it, love it

We're gonna be extinct
So let's pray

Here we are
Lost in the
Lost in the world
A crazy place of consequence
Lost in wilderness of heroes of another day

We're gonna be extinct
So lets pray

Let all your rivers run
And take me with the flood
