

bloodsimple, Overload

I got a reason to hide
I got a reason to fly from here,

Everybody's got some bullshit heartache story,
Forget about me.
You're the one I choose to use and
How's it feel to have your neck in the noose?
Neck in the noose...

Some people want to be left alone

Oh ya,
Ya keep me hangin on in overload
And now I notice that you're gone
In overload

I got a feeling that burns
I've got a feeling I can't describe
Tragedy's a part of me inherently,
What could I do?
You're the one I choose to use and
How's it feel to have your neck in the noose?
Neck in the noose...

Some people want to be left alone

Oh ya,
Ya keep me hangin on in overload
And now I notice that you're gone
In overload

I'm searching all around town
I'm searching up and down town
I find it hard to find you
Yeah, find you

Oh ya,
Ya keep me hangin on, in overload
And now i notice that youre gone
In overload.

Yeah ya keep me hanging on
In overload
Now I notice that you're gone
In overload. (In overloooaad!)
