

# bloodsimple, What If I Lost It

When the time is right you got to get up and fight  
When your numbers up you gotta get up and  
Die would you walk five blocks to meet me because  
The crowds no coming could you walk  
Five blocks that skin will get numb

How many times have you been mistreated?  
How many times have you been misled?  
They brought this nightmare  
To life all we wanted was to be respected learned our  
Lessons don't you ever forget we  
Stand larger than life

What if I lost it was said and done but  
I needed some more hadn't had enough kept kicking  
In doors convicted with no excuse just pull the trigger  
Cause I've got nothing to lose disputed I will  
Not be locked down split lipped with nothing to loose I  
Will never change my point of view  
Dispute it the victim is you
