

Blowsight, Life & Death

Life - not that much to say,
we start, we struggle we go away but
Death - couldn't be more true,
now everything you're telling me,
is everything I want to say to you
Life - I know, it isn't fair but ,
believe it or not,
we're here to stay and
Death - Is for us tomorrow,
bring your thoughts and bring your sorrow
So did you really want to look inside,
I know you're not a victim
And whatever you say,
whatever you do,
wherever you are just trick him
And Life is a dangerous thing,
you can suddenly die,
you are under the wings of
Death - it's just a thing to remember
from the beginning of the year
to snowy christmas in december
Life - Keeps us under the roof of God,
keeps under the claws of
Death - until the day you die,
you will go on searching but you will never know why
It's just life
And if a man wanna take you home now
If a man wanna buy you whole
(Just say no)
And if you hear him ask for mercy
and you feel that he plays a role
(Just say no)
