

Blue Cafe, DENDIX

No one,
Ever, no one's
Been in love so much as we are
They can keep on talking
It don't matter what they say
Cause all we know, all we now
It is real
Now I know, now I know
What I feel

No one,
Baby no one's
Ever looked at me like you now
Take me to the stars
We have all night to run away
Cause all we know, all we now
It is real
Now I know, now I know
What I feel

Could it be, finally
You're my home
It is you, I have loved
All along
