

# Blue Cafe, DENDIX

No one,  
Ever, no one's  
Been in love so much as we are  
They can keep on talking  
It don't matter what they say  
Cause all we know, all we now  
It is real  
Now I know, now I know  
What I feel

No one,  
Baby no one's  
Ever looked at me like you now  
Take me to the stars  
We have all night to run away  
Cause all we know, all we now  
It is real  
Now I know, now I know  
What I feel

Could it be, finally  
You're my home  
It is you, I have loved  
All along
