

Blue Cafe, I Love Jazz

All right let me tell you sth about Blue Cafe
Maybe it's nothing new
Maybe some of you don't like what we do
Maybe I sound like a frog to you
But I won't stop cause I get this sexy feeling
When I'm coming to you
With this Blue Cafe stuff
Which is good for me which is hot
We're coming right your way
I love singing boys just wanna play

All right let me put it this way
I love music I guess boys the same
So you can call us this or that
But I won't get furious I won't get sad
I can say thank you for criticizing maybe you're right
Those of you that want to hurt me do not waste your time
I love to see you having good time
I love to see girls shaking their hips around

I feel it
I feel it in my veins
I love playing
Being on the stage
I feel it
I feel it in veins
I love to play

I love jazz
Jazz and funky
Funky soul and blues

Ok. let me tell you one more time
Maybe I don't have a voice
Maybe I can only make noise
Maybe my lyrics are very bad
Maybe this music sounds like shit
Maybe boys don't know how to play
But we're not going to withdraw from the stage
I'm sure we all wanna stay
Besides there is this indescribable feeling we all get
When we're coming to you and we start to play

I feel it
I feel it in my veins
I love playing
Being on the stage
I feel it
I feel it in veins
I love to play

I love jazz
Jazz and funky
Funky soul and blues
